The Science of Coordination

Capabilities Statement

National Cardiovascular Health Conference

National Heart, Lung and Blood Institute,
National Institutes of Health, U.S. Department of Health and Human
Services

LPE staff supported the National Heart, Lung and Blood Institute (NHLBI) by planning and managing the National Cardiovascular Health Conference. The conference attracted over 1200 attendees to over 75 concurrent oral sessions, 7 plenary sessions, 120 poster presentations, 40 roundtable presentations, 9 grand round sessions, 55 exhibitors, and a heart-healthy welcoming reception.

LPE efforts in support of NHLBI included convening an executive committee and a program planning committee to create educational and scientific session themes and recommend experts to be invited to present at the conference. LPE staff utilized our extensive conference management expertise to plan for over 80 oral sessions conducted over 2 1/2 days. Over 200 PowerPoint presentations were collected in advance of the conference and pre-loaded onto laptops to be used in each concurrent or plenary session room.

LPE staff also coordinated a satellite downlink to 143 sites throughout the US and Canada. In addition, all plenary sessions and a number of concurrent sessions were Webcast throughout the 2 1/2 day period.
